

MASEMA Turnkey Project

MUFFIN & CUPCAKE LINE

The company offers automatic or semi-automatic lines for making muffins, cup-cakes, and deposited products in various shapes and sizes, including decoration, masking, printing, oil spraying, and tray depanning.

PIE LINE

Semi automatic solution for the production of round and rectangular custard pies, filled with jam or cream, closed with a pastry lid or net.

LAYER CAKE LINE

The machine provides automated, customizable production lines for layer cakes of various shapes, sizes, and decorations, including special masking, sprinkling, decoration, robotic writing, printing, and ultrasonic cutting.

BREAD LINE

Discover efficient production for premium breads

SPONGE CAKE LINE

Machine offers comprehensive solutions for producing sponge cake and sponge cake-based products, including automatic filling systems, decoration, masking, printing, and ultrasonic cutting.

CROISSANT MOLDING LINE

When quality and quantity counts

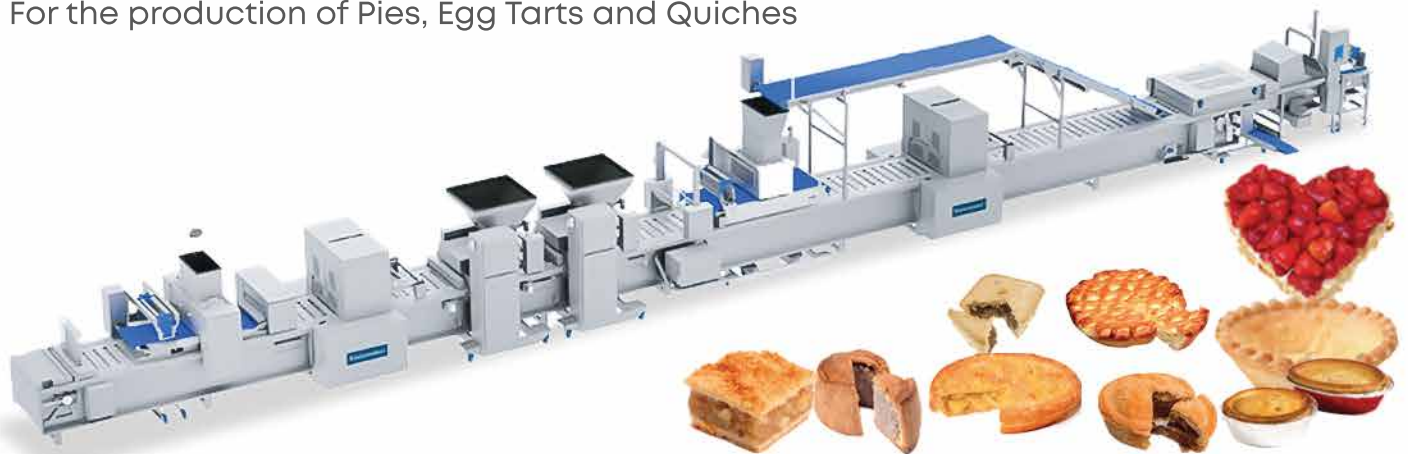

FLATBREAD SHEETING LINE

Where tradition and innovation meet

PERFECT PIE PRODUCTION

For the production of Pies, Egg Tarts and Quiches

QUICHE LINE

The quiche production line is unique for preserving pastry crust layering and handling liquid filling. It uses a laminator to generate pastry dough, guillotine for dough rework, and an outfeed system for delivery.

INDUSTRIAL BREAD LINE

UNIVERSAL PASTRY LINE

Endless product variation

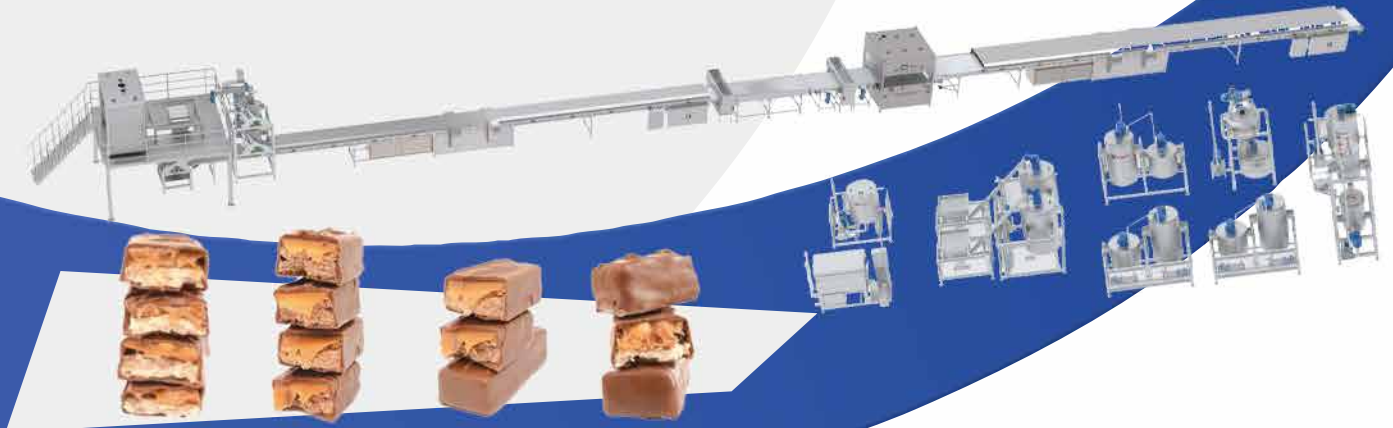

FULLY AUTOMATIC CUPCAKES MAKING MACHINE

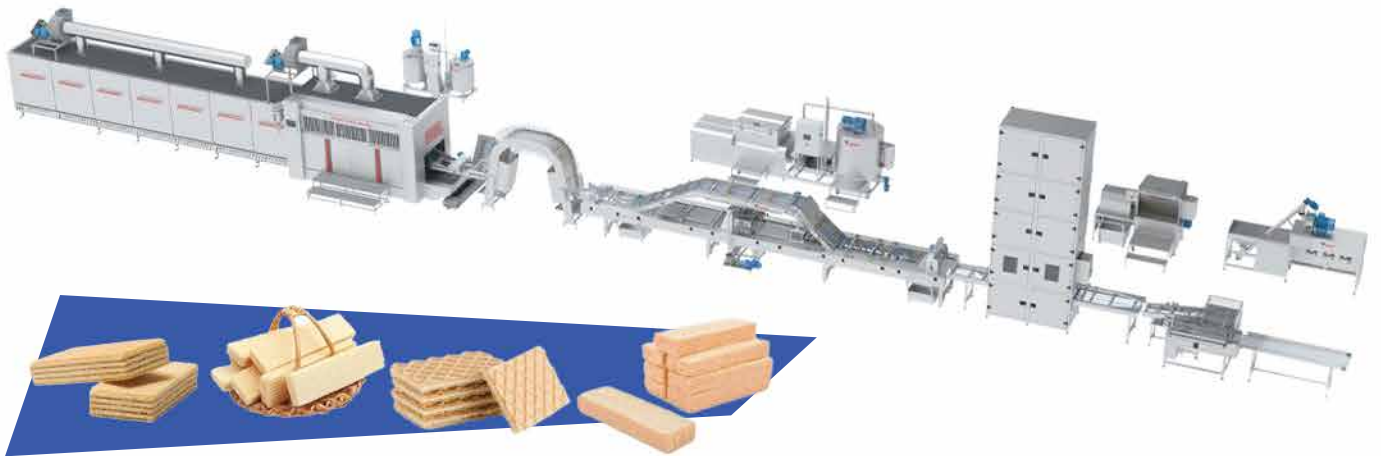

This machine offers high-quality, modern green world engineering for making various cupcake shapes, offering unique industrial possibilities and easy industrial standards for small and medium-sized establishments.

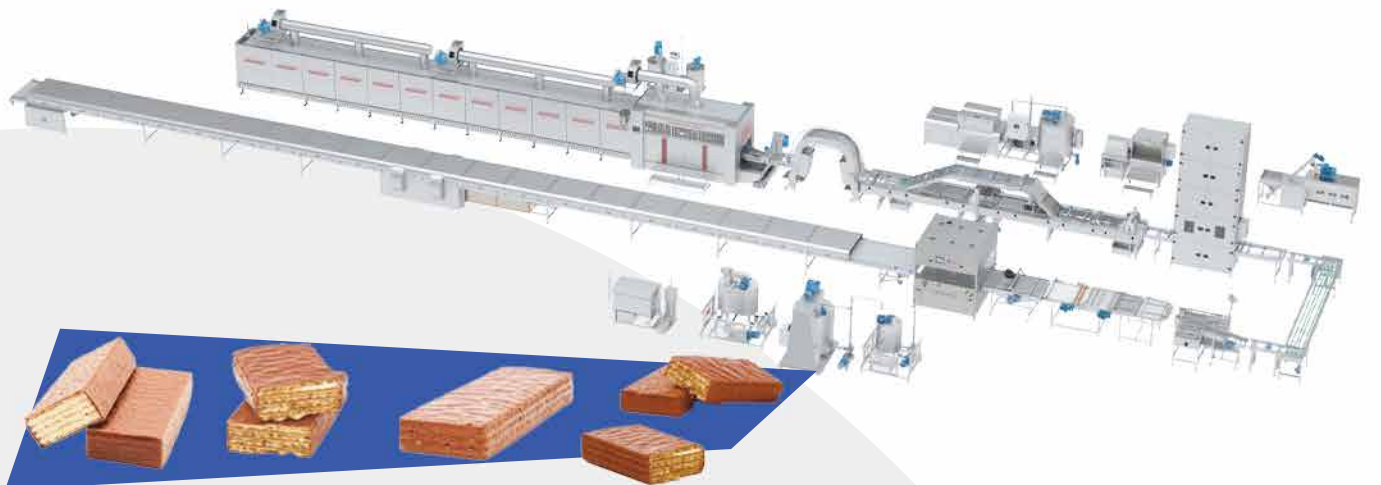

NOUGAT CARAMEL PRODUCTION LINE

PLAIN FLAT WAFER FACILITY

CHOCOLATE COATED WAFER PRODUCTION LINE

BARAZIK COOKIES MACHINE

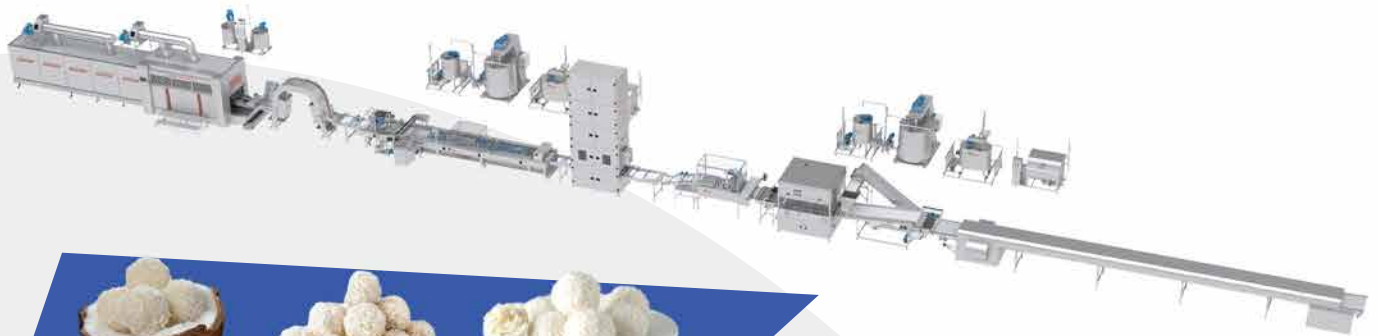

A specialized machine produces BARAZIK, a high-quality, high-tech product made of chrome stainless steel 430 and 304, with a production capacity of 80 kg per hour to 100 kg.

FILLING CONE PRODUCTION LINE

BALL WAFER PRODUCTION LINE

DATES FILLING COOKIES MACHINE & COOKIES IN TWO COLORS (MAAMOUL)

The machine, made of chrome and suitable for food industry, has a capacity of 35pcs per hour per minute and offers various cookie types, including dates pasta, cream chocolate, or jam.

BREAD STICKS & GRISSINI MACHINE

The machine, designed for modern green world engineering, offers various sesame-seed bread sticks with high-quality and industrial potential. It has a capacity of 250-300 kg/hour, touchable electronic panel, and after-sales service.

COOKIES & BREAD STICKS MACHINE

The machine, made of chrome and suitable for food industry, has a capacity of 250-300 kg/hour and offers various cookie shapes, jam, sesame seeds, and coconut toppings. It offers easy control and online service.

FULL AUTOMATIC CHOCO PIE LINE

Choco Pie production involves dough preparation, aeration, depositing, baking, cooling, cream/marshmallow depositing, kitchen equipment, overlapping, and automatic cake transfer.

SPONGE CAKE LINE

One Line, thousand possibilities.

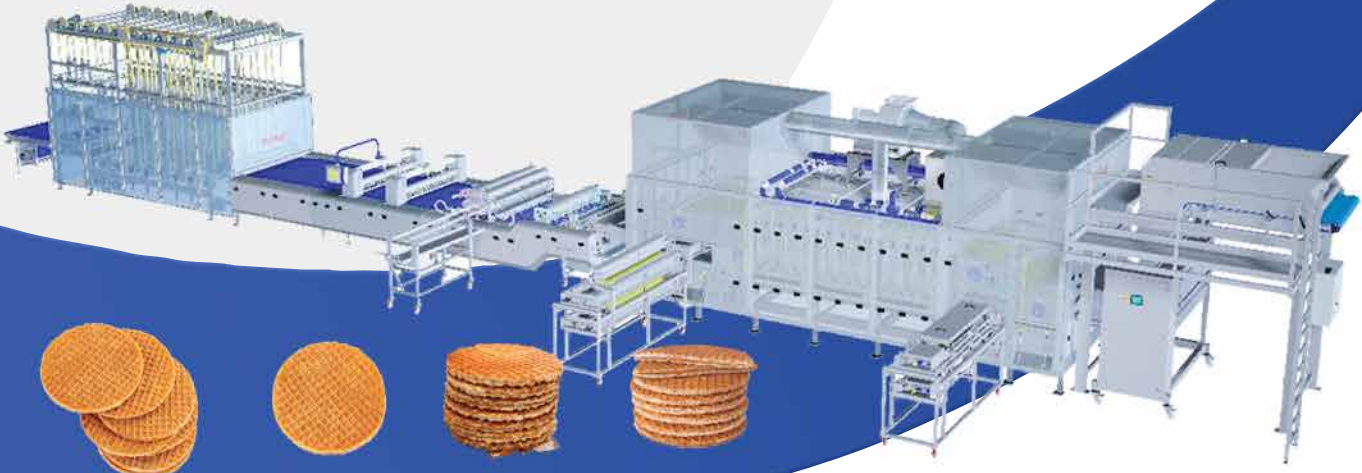

MULTI HEAD ENCRUSTING & CO-EXTRUDING MACHINE

The machine, equipped with advanced technology, features 10 nozzles, P.L.C control, touch screen, and is suitable for full automatic lines, offering various options.
